

Your Digital Solution for Entertainment

Bringing
convenience
quality
scalability
To Your Life

Wireless TV

Coventive's wireless TV box/module is an excellent digital entertainment device to any household with more than one television. It is really easy to set up but powerful, enabling you to send signals from video sources from one part of the house to another without the need for trailing cables around your house. You can watch the satellite, TV program, or any different video source on the television near you, while someone watches something else on the TV in living room. It's as simple and convenient as that.

Features:

■ Host:

- Encoding the Analog Video/Audio as a High compress MPEG Digital Video/Audio format
- Send MPEG2/MPEG4 stream over Wireless Ethernet
- Send MPEG2/MPEG4 stream over TCP/IP Ethernet real-timely
- Remote system management and setting with Web-management
- Optional: Store the Digital Video/Audio to local store disk
- Optional: Store the Digital Video/Audio to remote network store disk

■ Client:

- Play/Decoding the High compress MPEG2/MPEG4 Digital Video/Audio stream over Ethernet to TV out
- Play/Decoding the MPEG2/MPEG4 file from local/remote disk file to TV out
- Real-time play a MPEG2/MPEG4 stream over Wireless Ethernet
- Real-time play a MPEG2/MPEG4 stream over TCP/IP Ethernet
- Simple Web-based UI for player list management
- Remote player controller, system management and setting with Web-management and OSD UI setting locally
- Optional: Ir Remote controller
- Optional: Receiver and Store the Digital Video/Audio as a remote network store disk

Hardware Specification:

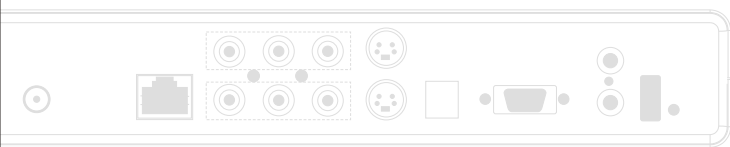

CPU	TOSHIBA 4925(6) 200MHz MIP
Embedded System Flash ROM	16/32MB
System RAM	64MB
MPEG Media DSP	Vweb 2010 (MPEG1/2/4 Decoder/Encoder)
IDE	1 x 2.5"HDD (Optional)
LAN	1x 10/100Mbps Ethernet
Smart Card Reader	1 slot
USB Host	2 x USB 2.0 Port (Type A)
Power	AC Adapter 5V DC output
Dimension	22cm(W)*17cm(D)*4.2cm(H)

Rear Site - Media-I/O Connectors

Composite Video Out	1 x NTSC connector (RCA jack yellow)
Analogue Audio Out	2x Audio out port (RCA jack white, red)
S-Video out port (4-pins DIN)	1
SPDIF output	1
D1 output	1
Composite Video In	1x NTSC connector (RCA jack yellow)
Analogue Audio In	2x Audio out port (RCA jack white, red)
S-Video Input port (4-pins DIN)	1
MIC Phone Input	1x 3.5mm mini phone jack for microphone input
Remote Digital I/O control connector	1 x 3.5mm mini phone jack
USB Connector	1x USB 2.0 (Type A)
System Reset Button	1

Front Side - User Control

Power Switch button	1
Media Play control	4 x (Stop/Rewind/Play/Pause/Forward)
Smark Card Insertion Port	1
5 Way Button	1 x (Left/Righ/Up/Down/Enter)
IrDA Receiver	1
System LEDs	2 x(Power/Active)
USB2.0 TYPE A Connector Port	1
